

Challenge Electronics is an industry leading audible component, battery assembly supplier and partnered Original Design Manufacturer (ODM) for some of the world's largest Original Equipment Manufacturing (OEM) companies.

Our innovative QuikClik technology incorporates proprietary components that are designed for a **quick, easy, and tamper-resistant** installation into a variety of panel thicknesses. Our product creates opportunities for increased LEAN production, quality control, and product security.

Technical Parameters

Housing Material
High Grade PPO

Resonant Frequency (fo)
2400 Hz

Tone Selections
PinPoint
Continuous
Pulsating
Sweep

Ingress Protection Rated
IP68

NEMA Capable
NEMA 4X

Tamper & Vibration Resistant Design

Designed to utilize our innovative latching arms for "one way" installation, Panel Mount Alarms with QuikClik cannot be removed by hand once installed. In addition, the latching arms allow our Panel Mount Alarms to function in systems prone to extensive vibration.

Simple Installation & Low Profile Design

Our QuikClik design does not require any adhesive, threaded components or additional tools for installation and optimizes a low profile installed height of 7 mm above the mounting panel.

Universal Mounting Capabilities

Our Panel Mounted Alarms with QuikClik are designed to be installed into an industry standard panel opening of 28.6 mm, ranging from 2 mm to 4 mm in thickness.
